Charlie McNichol, **Director**

## PRESS RELEASE

**Please join us at the 9-1-1 Center Thursday July 1<sup>st</sup> at 11:00AM when Mayor Sandy Stimpson, Sheriff Sam Cochran and other local officials will announce the deployment of DIGITAL SIREN in Mobile County. The Mobile County Communications (9-1-1) District is partnering will all law enforcement agencies throughout the county to provide this service to our citizens. The goal is to save lives when the certain individuals feel the need to flee the police attempting to stop them on the roadways.**

DIGITAL SIREN is cutting-edge technology designed by Pursuit Alert to alert the public of a high-speed pursuit in their vicinity. By downloading the FREE APP a citizen can receive these alerts. The number of innocent people killed on our roadways by fleeing criminals is staggering. Officials in Mobile appreciate your help in getting this information out to the community. The more people who download the app increase the chances of saving a life.

Many jurisdictions around the country have deployed this technology but to-date Mobile County is the largest jurisdiction full scale deployment of DIGITAL SIREN.

During the conference on Thursday police will demonstrate how DIGITAL SIREN actually works.

If you would like to gain more information please go to [www.pursuitalert.com](http://www.pursuitalert.com) and see what it's all about.

DIGITAL SIREN can be found on the APP Store and on Google Play.

Any questions please call Director Charlie McNichol at 251-639-2360.
